

HOUSE OF COMMONS

The Rt. Hon. Theresa May MP
Prime Minister
10 Downing St.
London
SW1A 2AA

17th December 2018

Dear Prime Minister,

We the undersigned Members of Parliament, business leaders and representatives are writing to you about the threat that leaving the European Union without a deal poses to the manufacturing industry. Many of us represent constituencies with a significant manufacturing presence. Manufacturing plants employ thousands of our constituents and their jobs will be put at immediate risk if the United Kingdom leaves the European Union with no deal. We are acutely aware that 29th March is fast approaching.

The renaissance of manufacturing and its supply chains in this country, bolstered by demand for exports, has markedly improved the lives of our constituents. The principal market for these exports has been the European Union. The revival of the manufacturing industry has created innumerable jobs, not only via direct employment but also in the supply chain and ancillary services.

A whole generation of young people have had the opportunity to access world-class training and gone onto highly skilled and well-paid employment in manufacturing with iconic, global and market-leading companies. As a result, the aspirations of a generation have been raised.

Leaving the EU without a deal would cause unnecessary economic damage. Trading on World Trade Organisation (WTO) terms would instantly make our manufacturers less competitive and make it very difficult for the industry to justify producing goods in the UK for export. Leaving without a deal would make continued investment in UK manufacturing a real challenge for global firms, when they have plants in other European locations. Without continued investment and confidence in the UK manufacturing sector, thousands of jobs across the country will be put at immediate risk.

As a cross-party group of MPs, business leaders and representatives, we are united in our determination that the UK must not crash out of the EU without a deal. We urge the Government to agree a mechanism that would ensure a 'No Deal' Brexit could not take place and are confident this is a path that Parliament would support.

Yours ever,

Jack Dromey MP
